**Subject:** RE: Correspondence Re: Requested NFL Concussion Settlement Disclosures

Dear Mr. McCall,

While I urge you to review the Settlement Agreement, which is available on the Settlement Website, in its entirety, I specifically suggest you review Section 6.3(b) of the Settlement Agreement regarding your Questions/Concerns at Nos. 11, 12 and 18 in the chart attached to your letter. It is not our assertion – rather, it is a fact - after the Effective Date, Qualifying Diagnoses can be made only by those selected as Qualified MAF Physicians and Qualified BAP Providers.

Without commenting on the abbreviated FAQs you have created, as per the attachment to your letter, we refer you the FAQs on the Settlement Website. Specifically as to the post-Effective Date diagnoses which will be deemed Qualifying Diagnoses, we refer you to FAQ 5.07 and the chart contained therein.

If Class Members in the post-Effective Date time period have been/are being sent for medical exams by physicians other than the Qualified MAF Physicians and Qualified BAP Providers with the promise or even the suggestion of the possibility of receipt of a Qualifying Diagnosis through that exercise, that's problematic. As such, it is further problematic if the costs for those exams are being "advanced" on a recourse or non-recourse basis.
